Troubleshooting

SYMPTOM	CAUSE	SOLUTION
Cannot smell oil when unit starts	Majority of the oil is still in the water tank	Add an additional 3-5 drops of oil in the water when starting
No mist	Using incorrect water, distilled or purified	Use Tap Water (without filter)
	Unit is out of water	Add additional water
No mist or little mist	Unit needs to be cleaned. Oils are clinging to ceramic disc/sensor	Clean unit as advised in instructions with clean water & clean ceramic disc/sensor with brush or swab.
	Water level is higher than max level line	Clean unit and add water 1/2 way to fill line and additional water after getting mist. Remove excess water and restart the diffuser.
Blinking Lights	Water level indicator is dirty	Clean unit as advised. Pay particular attention to swab the sensor/disc inside the bottom of the unit.
	Condensation may have accumulated inside the top.	Gently tap the top cover to allow water to drop back into the tank.
Unit will not stop running even though empty	Water level indicator is dirty	Clean unit as advised. Pay particular attention to swab the sensor/disc inside the bottom of unit.
No misting and unit is spraying water	Water is too cold	Change to warmer water.

CAUTION: Keep away from children and pets.

This diffuser has a 1 year manufacturer guarantee.
Please call customer service at 1-888-548-0040 for assistance.
Do not return it to the retailer.

Essential Oil Info

NOW® Solutions' essential oils are genuine reflections of the botanicals of which they're born. This wide array of essential oils is comprised of pure and natural extracts. The science of producing essential oils has evolved significantly over the years. These days producing essential oil that's highly concentrated, identity verified, and beneficial is a craft that involves a delicate balance of art and science that cannot be compromised. Fresh botanicals bursting with vitality, strict attention to detail, and meticulous extraction methods are what separate the elite essential oils from the run-of-the-mill natural and synthetic oils you'll find on the market today. At NOW we take the quality and safety of our essential oils very seriously, and we take great pride in ensuring that every oil we produce is brought to you in a manner that's scientifically and environmentally responsible.

- 1 drop of NOW® Geranium Oil
- 15 drops of NOW® Rose Absolute Oil

Congratulations on your purchase of NOW® Real Bamboo Ultrasonic Oil Diffuser designed for indoor use only. Please read the instructions carefully before using.

How it works

NOW® Real Bamboo Ultrasonic Oil Diffuser uses high frequency ultrasonic technology that vibrates water inside the unit creating an ultra fine mist into the air. When essential oils are added, they are immediately dispersed into the air providing healthful benefits and helping to ionize the air. It can be used in a bedroom, living room, office area or anywhere you want to create a relaxing environment.

What's included

How to add essential oil

- 1 Plug the adapter cord into the base first then plug the unit into the wall. Do not move once unit has been filled with water. Take off the lid.
- 2 Add 5 Drops of Essential Oil

Using your own cup, fill the base with 150 ml (5 fl. oz.) of luke warm (not cold) tap water. Do not use distilled or purified/filtered water. Do not overfill.

How to operate

5 Modes of Operation.

- | | | |
|----------------|-------------|-------------|
| Press Power | Press timer | Press Light |
| 1 Continuous | 1H timer | 1 Rotating |
| 2 Intermittent | 2 H timer | 2 Fixed |
| 3 OFF | | 3 Off |

NOTE: Oil mist can damage wooden and painted surfaces, wipe up any residue quickly and often.

How to clean

We recommend that you clean your NOW® Real Bamboo Ultrasonic Oil Diffuser every time you change oils. Oils are corrosive, and over time, they build up on the ceramic parts. To ensure a long life for your diffuser, follow these simple cleaning and maintenance instructions:

Turn off the unit and disconnect the powerplug. Lift off the lid and empty any water remaining into a sink.

- Only use clean water at room temperature to fill the water tank.
- Rinse the water tank and wipe it dry with a clean cloth every time you use a different type of essential oil.
- Use a damp cloth to clean the exterior of the unit.
- Use a cotton swab or brush to clean the ceramic disc.
- Keep water from entering the vent.
- Do not move once unit has been filled with water.
- Do not use detergents, solvents or abrasive agents to clean the diffuser unit.
- Disconnect the diffuser unit from power before cleaning.
- Use the diffuser unit on a dry and even surface.

Please read the instructions carefully before using. Manufacturer accepts no liability for damage caused by incorrect use of the NOW® Real Bamboo Ultrasonic Oil Diffuser.

⚠	1. Clean the unit when changing to a different oil.
⚠	2. Clean the unit by rinsing the water tank and wiping it dry with a clean cloth.
⊘	3. Do not use detergents, solvents or abrasive agents to clean the diffuser unit.
⚠	4. Shut off and unplug the power before cleaning.
⚠	5. Use the original adapter provided by the manufacture.
⚠	6. If you don't use the device for a long time, unplug and pour water out.
⊘	7. Never use steamed water or very cold water. Never use corrosive solvent to clean product.
⊘	8. Never touch water level sensor and avoid product hitting other objects.
⊘	9. Never put your hand above the ceramic disc when product is working, as this could cause pain and damage the machine.
⚠	10. Never wrap the adapter with a cloth or paper, etc. Otherwise, it cannot dissipate heat normally and may cause deformation and burn the membrane from a short circuit. Never touch the adapter with wet hands.
⊘	11. Do not use other liquids except for water & drops of essential or fragrance oils.
⊘	12. Do not aim the device at walls, ceilings, or furniture surfaces as excess moisture could cause water damage.
⚠	13. Do not take this unit apart exposing electrical parts. Call customer service for assistance and guarantee information.
⚠	14. Never place on loose fabric that can block air flow and prevent the unit from misting and ventilating properly.
